VACCINATION.

Is Vaccine Virus Poison?
An Anti-Vaccination League organized in New York.

From the New York Sun.

The "First Anti-Vaccination League of America" was formed in the lecture room of the United States Medical College, Thirteenth street, last evening. The movement was brought about mainly by the presence of Mr. William Tebb, an Englishman, who lives in the fashionable quarter of London, who has stubbornly resisted thirteen prosecutions for refusing to have his children vaccinated. He was fined twelve times, but on the thirteenth he says the British Government got tired and did not molest him further. His attention was first drawn to the subject by taking his second daughter to be vaccinated after one effort to vaccinate her had failed. The physician said, "Take your daughter home and let her alone. Vaccination won't prevent small-pox, and it may do the child an injury." Soon he made up his mind that the compulsory vaccination act was a tyranny because it made people liable to take inoculable diseases, and did not insure them against taking small-pox. He hunted up books and statistics, and ascertained that at least eight per cent of those who died of small-pox in England were those who had been vaccinated. The more he read and investigated, the more he became determined to resist the vaccination act. He published tracts, got up lectures, established that at least eight per cent of those who died of small-pox in England were those who had been vaccinated. The more he read and investigated, the more he became determined to resist the vaccination act. He published tracts, got up lectures,

in vaccinating from the arm, but now I am of the opinion that the least dangerous way is to get vaccine matter from a respectable calf, rather than run the risk of some of the sore arms that now often furnish the supply of virus."

PROCEEDING TO BUSINESS.

The Anti-Vaccination League was organized by the choice of Dr. Alexander Wilds as President, J. W. Nickles as Secretary; M. L. Hollbrook, Treasurer; J. E. Briggs, M. D., Thomas A. Granger, M. D., and R. A. Gunn, M. D., as Executive Committee. The object of the society is to awaken the attention of the public to the evils of vaccination and to its utility, to put an end to its practice, and to prevent legislation for its enforcement.

Three Miles Above the Sea.

The Mexican volcano of Orizaba, 17,300 feet above the sea level, has been ascended by M. Athalza, a resident in Puebla. Thirteen persons accompanied him, one of whom died at the top from rarefaction of the air, and another a few days afterward from erysipelas caused by the reflection of the sun on the snow. 7000 steps had to be cut in the snow to gain the summit, and the expedition occupied four days, one of which was a blank owing to rain and snow. Baron Muller, in 1859, first made the ascent, and has had very few successors.

Ventilating Bed-Rooms.

A sheet of fine perforated zinc, substituted for a pane of glass in one of the upper squares of a chamber window, is the best form of ventilator that can be used.

How to Save Money.

Instead of going to a doctor for a prescription, if you have Bright's disease, Diabetes, Pain in the back and loins, Smarting, Inflammation, Calculi, Brickdust deposit, or any trouble of the Kidneys or Bladder, buy a bottle of Mint's Nephritis, the great Buchu Compound. It is the most wonderful prescription ever compounded for these troubles. Messrs. Abrams & Carroll, wholesale druggists, say: "We regard Nephritis as the best Kidney and Bladder Remedy in the market." Woodward, druggist, Portland, Oregon, says: "Everybody speaks highly of it." Childe, druggist, Portland, Oregon, says: "Sold lots of it; it always does the work." Many have been cured of obstinate kidney complaints after the doctors have given them up. For sale by Osburn & Shoemaker. Price \$1.25.

Oct 3

Mounts & Kennedy, Nos. 19 and 21 Post street, San Francisco. Oil Paintings, Water Colors, Engravings and Frames. Velveteen Frames of every description for cabinet pictures. These elegant goods are of the choicest description and are the latest produced by some of our most eminent artists. A new Art Gallery is connected with the establishment and contains the finest pictures in the city, and some of the finest in America. The latest productions of the best artists in the city go directly from the easel to this gallery. Visit us. We have a fine collection of Water Colors, Oil Paintings, Steel Engravings, Panels, etc., in very large and elegant. Artists' materials and every style of Frames to fit the largest order.

Jan 6-17

Alexander Wilder, M. D., on taking the chair, said he had long been hostile to vaccination. He was satisfied that after vaccination persons are more likely to take any disease—even small-pox itself. When once the blood is contaminated by bovine virus the chance of taking small-pox is greater than if the vaccination had not been done. From his personal observation among relatives and friends and patients he was satisfied that many persons contract small-pox after vaccination, and even after, they have had small-pox once. He was satisfied that Jenner, the discoverer of vaccination, never recommended the use of bovine virus as a preventive.

VACCINATION PREDISPOSES TO SMALL-POX.

Alexander Wilder, M. D., on taking the chair, said he had long been hostile to vaccination. He was satisfied that after vaccination persons are more likely to take any disease—even small-pox itself. When once the blood is contaminated by bovine virus the chance of taking small-pox is greater than if the vaccination had not been done. From his personal observation among relatives and friends and patients he was satisfied that many persons contract small-pox after vaccination, and even after, they have had small-pox once. He was satisfied that Jenner, the discoverer of vaccination, never recommended the use of bovine virus as a preventive.

POISONED BY VACCINE VIRUS.

Mr. Tebb gave his views and experience to the meeting. In addition to the facts recited above, he said that he had known several cases of great hardship, in which poor men had been persecuted for refusing to have their children vaccinated. He spoke of the case of a man named Nye, a clockmaker, who had been imprisoned nine times because of his refusal to comply with the law. The man's reason was that two of his children who had died were, in his opinion, poisoned by vaccine virus.

COMPULSORY VACCINATION.

Mr. Tebb related the experience of his own physician, who had lost \$2500 a year in his practice by refusing to vaccinate. One lady, a passenger on the steamship, told Mr. Tebb that she had lost two children by vaccine poison. She told the doctor that she had used bad virus, but she said to Mr. Tebb, "at that time I did not know that it was all bad." In Montreal, where the vaccine virus was punctured into the people by law, the public indignation at the outrage became so strong in consequence of the obvious fact that vaccination does not prevent small-pox, that a mob of 10,000 people actually threatened to tear down the buildings in which the authorities were assembled to pass a compulsory vaccination act. The people had seen their children diseased by the poison of vaccine virus, and saw that nothing but a mob would put an end to it, just as a mob put an end to the old-fashioned inoculation that was condemned only after a hundred years of failure.

A SATIRICAL DOCTOR'S VIEWS.

Dr. Wilder said that to start a running ulcer in a man's arm would be about as useful in preventing him from taking small-pox as any other method. "Indeed, that is about what vaccination is," he added. "I used to believe

in vaccinating from the arm, but now I am of the opinion that the least dangerous way is to get vaccine matter from a respectable calf, rather than run the risk of some of the sore arms that now often furnish the supply of virus."

PROCEEDING TO BUSINESS.

The subscription list of the GAZETTE is growing so rapidly that mistakes are liable to occur by which subscribers may fail to receive their papers. If any who are missed will send us a postal card, we will see to it that their paper goes to them promptly.

NEVADA NEWSPAPERS.

The Territorial Enterprise and the Virginia Chronicle claim to be the leading papers of this State, and they are certainly very fine journals. Each has an able corps of writers both editorial and local, and when either one has anything to say it is put with force and precision. Either paper will compare favorably with the dailies of any eastern city with twice the population of Virginia. While we give full credit to both these big guns for their excellence in both news and wit, we think they impair their usefulness to their readers and to the State by their constant quarrels. They lower themselves very much and rob their supporters of the honest work they get paid for by filling their columns with silly arguments upon microscopically small questions. The first duty of a journal is to work for the prosperity of the community from which it draws its support. We believe that the Chronicle and Enterprise are doing the opposite of good in the State of Nevada by their senseless bickerings. If there is anything at all in the much advertised power of the press, these two papers could benefit the State by taking a more dignified course as regards each other. Nevada has use for all her citizens, and can find plenty of work for them without their pulling each other down. The most casual observer must have observed the difference between the papers issued in New York City and those of San Francisco. Very often two or three of the great papers of New York have articles upon the same subject, and, excepting in politics, they are usually in something like harmony. This is especially true in matters pertaining to the development of the country. In San Francisco there has been a ceaseless war for years. No one paper has been allowed to attain its real greatness through the small jealousies of its rivals. They have sacrificed everything to the one passion of pulling each other down, and in the selfish scramble they nearly ruined the city. We are not talking now for a sensation or to attract notice. We are talking for the good of the State and for the benefit of the people, who have no means of scolding their servants. The Enterprise might as well make up its mind that the Chronicle is there to stay, and cannot be extinguished by picking flaws. The Chronicle ought to see that it cannot build itself up by abusing its older rival. It has a large enough field and sufficient ability to draw support without using that means. Both papers could do the State good by forgetting each other and using their space to elevate our standing with the outside world, to develop our resources, and to spread knowledge and news among the people of our own State, in which good work they will receive the assistance of all the papers of the State, and in addition to making more money they will earn the respect of their readers and the approval of their own consciences.

A FISH WORTH PROPAGATING.

In some of the large lakes of Idaho and Washington Territory is found a peculiar fish called the "red fish." As we have before stated, it has no place in the catalogues of science, and no specimen has been placed in the Smithsonian Institute. It is probably a distinct species of the salmon family, which includes every variety of trout and salmon. From what is said of it we believe the red fish must be one of the most valuable of food fishes, and hope that pisciculturists may be induced to give this species a trial. Referring to the red fish, the Walla Walla (W. T.) Statesman lately said: "Adams Bros. this week received the largest consignment of these delicious fish that was ever brought to the market. They are incomparable, and far superior to any salmon, not only in flavor but on account of the great advantage they possess of not taking so much salt."

In reference to the above extract the Boise City (Idaho) Democrat remarks: "Notwithstanding the purple nonsense of some of the newspaper writers of that country about the celebrated red fish being dog-salmon, it seems that where parties try the flavor of these splendid fish they all agree that said newspaper men are 'a little off,' and the fish most with ready sale. Boise City should have a continual supply of these splendid fish."

EDITORIAL NOTES.

The Carson Tribune and the Enterprise have been having a little dialogue as follows:

The Carson Tribune is an enterprising paper. Last evening's edition contained Thursday's report of the races.—Enterprise. A shot, eh? The Tribune goes to press at 4 o'clock. The races so far have not commenced until near 3 o'clock, and as the track is over a mile from town, and there being no telegraphic communication, it has been impossible to give the result the same day.—Tribune. Hire an Indian runner, Deacon, and go to press at 4:30. Don't play second to papers twenty-five miles away.

The GAZETTE had a runner who got in with the races every day as fast as they were finished during the State fair. It contained complete reports every day but one.

Last Saturday the Lake Mining Review ceased to exist and became resolved into a new paper to be known as the Mammoth City Times. The change is simply in name, and the Times will be as good a paper as the Review, which is saying a good deal.

The Bentonian is now one of the neatest of our exchanges. Its enterprising proprietor, Orlando E. Jones, deserves great credit for his perseverance under difficulties.

The Sacramento Independent, published No. 1, of Vol. 1 last Saturday. It is a very neat seven column weekly, and a stalwart Republican, John H. Larkins' name is at the head.

STATE NEWS IN BRIEF.

There is not a fiddler in Austin now and for lack of music there can be no balls.

Since January, 32 marriages have taken place in Eureka county and in Lander county 17.

A portable Babcock fire extinguisher is the apparatus worked by the Fire Department of Tuscarora.

The Assessment Roll of Elko county last year footed up a grand total of \$3,124,216. This year it aggregates \$3,040,783, a falling off of \$82,424.

A bet of \$250 dollars was made last Friday in Carson that Sierra Nevada would reach \$100 per share before it again touched \$50.

One hundred and sixty-nine advertised letters were sent last week from the Eureka Postoffice to the Dead Letter Office at Washington.

Humboldt county is excited over a gold-bearing quartz ledge discovered at Dus Glen, which is distant about seven miles southeast of Mill City station, on the line of the Central Pacific Railroad, one of the oldest mining camps in the State.

The talk about scarcity of money in Eureka is all bosh. The Leader is credibly informed that since E. H. Griswold commenced selling off, the sales have averaged nearly a thousand dollars a day. This proves that there is plenty of money in the community.

A young girl at Virginia City was recently kissed into convulsions by her lover. Such things have different effects in different climates. A Tuscarora damsel lately went into convulsions at seeing her lover kiss another girl, while the latter, instead of convulsing, rather appeared to like it.

The total amount of taxable property on the assessment roll, in Lyon county, as equalized, is \$1,253,846, an increase of over a quarter-million dollars on the amount returned by the Assessor. The valuation of the property as equalized shows an increase of \$12,551 over last year.

The Eureka Leader learns that Sheriff Kyle and Mike Walsh are on the track of Lopez, the Mexican murderer who escaped from Elko a few days ago. The two report having seen him at the Italian ranches, a few miles from Eureka. It is probable that they will overtake him before he gets far, as they are close on his trail.

A Eureka Coroner, after summoning a jury, and over the corpse swearing the same, remarks: "Gentlemen, if you have any doubts as to the man being dead, just walk down to the doctor's office and examine his heart, which has just been removed." The jury with one accord came to the conclusion without further evidence that the man was dead.

There are no less than 92 species of fish in the Bay of San Francisco, and Fish Commissioner, B. B. Redding, will describe them all in his next report to the Legislature.

DIED.

BELL.—In Reno, Oct. 20th, Frank, youngest child of Mr. and Mrs. Frank Bell, aged one year and eight months. Funeral to-morrow (Tuesday) morning at ten o'clock.

NOTICES.

—There are 40,000 cords of wood piled up at Huffaker's.

—A good dwelling in the best part of Reno for sale. Inquire at this office.

—Miss Harvey has a few lottery tickets to sell yet. One of them will probably draw that beautiful silk and velvet dress that you saw in the pavilion.

—Whithead and Dixon are hauling the machinery for the Jones & Kinkaid mill from the East Brooklyn. Jones says the steam whistle must blow in a month.

—The Boca (5c) Beer Saloon has removed to Al. White's old stand, opposite Sunderland's shoe store. Mershon has bought out his old partner, and is now sole proprietor.

—In the case of Harrison & Bunting vs. the C. P. R. R., the Supreme Court of Nevada reversed Judge Wright's decision non-suiting the plaintiffs. This will render a new trial necessary.

—The firm of Rhodes & Wasson, owners of the Centennial Salt Marsh, near New Boston, on the Wadsworth road, have collapsed and their property has been attached by their creditors.

—Chieovich starts out with a magnificent stock of goods. He could fill up almost any bar in the State from his capacious casks at prices which would astonish the wholesalers in California. The Wine House is a mighty comfortable place these cool evenings.

PERSONAL.

E. S. Stokes went East last night. H. M. Bernard of Sacramento is in town.

C. C. Stevenson has come to Reno again to help close up the business of the Fair.

J. C. Corey of Virginia was here yesterday and returned home this morning.

Franck Free, Supt. of the Truckee division of the C. P. R. R., was in town this morning.

Charles F. Cosselmeir, of the Southern Nevada mine, goes east to-night. He will return in the spring.

Jesse R. Grant, son of General Grant, passed through Reno on the overland Saturday night to meet his father in San Francisco.

Dr. Springate who located in Wadsworth, nearly a year ago, as surgeon for the Pyramid Lake reservation, has moved to Battle Mountain. The Doctor has made many friends in Washoe county.

The Southern Nevada. The furnace and crusher for the Southern Nevada mine are on the ground and everything is ready to run as soon as a boiler and engine are set up. The furnace will consume 50,000 bushels of charcoal a month, 1200 bushels a day, worth 36 cents a bushel or \$432 a day. That will make business for some of the idle men in Emeralds county.

A BIG OFFER.

Attention is called to the advertisement of "the Inventor's Agency" which appears in to-day's GAZETTE. The offer explains itself and is a very liberal one. Good agents are making money by canvassing for orders. The agency sends high references and the goods are doubtless just as represented. Read the ad.

A Victim to the Scarlet Fever.

Frank Bell the Superintendent of the Western Union telegraph lines lost his only son, a bright little two-year-old boy, by scarlet fever. He died this morning after a brief illness. Mr. and Mrs. Bell have the sincere sympathy of the GAZETTE in their affliction.

The Davis Sewing Machine.

Osburn & Shoemaker are agents for the Davis Sewing Machine, which is a beauty in shape and finish. In the hands of an expert it can be made to almost work miracles. Call and examine it.

DISTRICT COURT—KING S. D.

Saturday's Proceedings.

M. Allen vs. L. B. Dubois—Judgment for plaintiff, \$250 and costs. Urilla Thomas vs. L. Duck and D. A. Bender—Demurrer to complaint overruled. Ten days to answer.

M. C. Lake vs. A. Coghill—Order setting case vacated.

State vs. H. D. McKenzie—Defendant pleaded not guilty. Set for trial Oct. 22d, at 10 A. M.

S. M. Griswold vs. Andrew Griswold—Set for Nov. 1st.

E. C. Gooch vs. Sullivan & Kelley—Defendant allowed ten days to answer.

George Jamison vs. California Fruit and Meat Shipping Company—Set for Oct. 23d.

R. C. Johnson vs. Infant Mining Company—Defendant allowed ten days to answer.

A. F. Kenney vs. Bemer and Shaber et al.—Demurrer to defendant's answer submitted and taken under advisement.

D. W. O'Connor vs. North Truckee Ditch Company—Defendant allowed ten days to answer.

State vs. Tong Wah and Ah Quong—Demurrer to indictment argued and taken under advisement.

Court adjourned until to-day.

TO DAY'S SESSION.

State vs. Tong Wah and Ah Quong—Demurrer annulled. Set for Oct. 22d.

Our Water Ditch Co. vs. Reno Water Ditch Co.—Demurrer to defendant's answer annulled. Plaintiff allowed five days to amend complaint.

The case of the Farmers' Co-operative Association vs. Hi Wah Sing & Co. The trial of this case took up the greater portion of the day. Many witnesses were examined. The case was given to the jury late in the afternoon.

FORCIBLE RE-ENTRY.

Breaking Down a Toll Gate and Demolishing the Keeper's House—An Outrageous Proceeding.

Holmes' toll road between Dayton and Mason Valley has been in use three years, and has never paid interest on cost. Some time ago J. Cummings, of Virginia, lent Holmes money, taking a mortgage on the road as security. Cummings to collect toll until the mortgage was raised. A few months since Holmes demanded possession of the road, claiming that the mortgage had been paid up. Cummings asserted the contrary and retained possession. Last Wednesday, while Cummings was absent, Holmes came to the gate with four men. They began to tear down the gate and the keeper's house. Mrs. Cummings tried to bring a shotgun to bear on the party, but was seized by Holmes and pulled out of the house, her dress being torn off in the struggle. The children were also put out of the house—the girl being lifted out by the hair of her head—and the men were ordered by Mr. Holmes to "kill the damned brats right there, if they didn't keep out of the way." The place having been totally wrecked, Holmes and his accomplices returned to Virginia. Such is, in substance, the version of the affair given by the Lyon County Times. Holmes has been arrested on a charge of malicious mischief, assault and battery, and lodged in the Dayton jail.

THE COMING FAIR.

ED. GAZETTE.—During the week we had a great number of visitors. Yesterday Dr. J. C. Hazlett, Miss G. Hazlett and L. Midgely. The two former and others were here to survey their claim. Before doing so they viewed the lower levels of the West Rapidian so as to make a correct plan of the Peerless property before commencing work.

A Mr. Brown is taking down his boarding house in Gold Hill, and already part of it is here.

O. K. Smith, the owner of the Rapidian and part owner of West Rapidian, was here also, making a survey for a road from the Devil's Gate to the above mines.

L. S. H. COMO.

Como, Nev., Oct. 17th, 1879.

FAST HORSES MOVING.

A number of race horses passed through yesterday on their way home from the Carson Fair. Among them were a number of Baldwin's horses going to California. C. Land's Ashby was on the cars, and was to be sent to Susanville, for the coming races there.

BEST PAINTS, OILS, ETC.

Raynolds & Co.'s paints, oils and varnishes are advertised in to-day's GAZETTE. All who have houses, barns, machinery, wagons or buggies to paint should give them a trial. The firm has a high standing, and the goods are manufactured especially for this climate and will stand it and retain their high finish as long as they will in any country.

FROM PARADISE.

Excellent reports are received here from the Bulletin mine of Paradise. A clean up of the bullion crushed in a five stamp mill will be had in a few days, and may be then seen in the Reno Savings Bank from whence it will be shipped. This mine is said to be ahead of anything in that section of the country and probably hard to beat in any other country.

ASSAYS FROM COMO.

A GAZETTE reporter took a hand-some black piece of rock from the bottom of the Eureka mine and had it assayed. It showed \$90 gold and \$20 silver. A very ordinary looking chunk from the West Rapidian went \$155, all silver. Both pieces were from the bottom of the mines.

PAINTS AND OILS.

A GAZETTE reporter took a hand-some black piece of rock from the bottom of the Eureka mine and had it assayed. It showed \$90 gold and \$20 silver. A very ordinary looking chunk from the West Rapidian went \$155, all silver. Both pieces were from the bottom of the mines.

RACING AT WINNEMUCCA.

GOOD HORSES ON THE TRACK—RENO MEN SCOOPED IN THE POOLS.

The races at Winnemucca of Friday were lively. The first was a match between Montana's Old Jerry and Giroix's Grizzly, for \$100, distance one and a half miles. A number of pools were sold with Old Jerry as the favorite. Jerry easily won the race and money without touch of whip or spur. Time, 8:01½.

THE SECOND RACE.

Was a half-mile dash, for a purse of \$400, open for any horse in the United States; first horse, \$250; second, \$90; third, \$60. Four entries were made: Greeley, Emma Skaggs, Mustang and Charley. The dash was won by Greeley. Time, 51½. In this connection the Silver State says:

Two years ago Emma Skaggs, the Eureka mare and Ballot Box, the Reno horse, got away with the lion's share of the spoils at the races here. Yesterday the owners of those horses, W. H. Sweeney, of Eureka, and A. Evans, of Reno, invested heavily on the mare against Greeley and Mustang, while the Winnemucca boys backed the home horses. The pools sold lively, the mare being the favorite at \$40 to \$25 for the field, and before the race came off the mare sold at the rate of \$20 to \$10 against the field. The mare was beaten by a few lengths, and Greeley's backers won nearly \$2,000, the greater part of which was put up by the gentlemen from Eureka and Reno. There.

OTHER RACES.

A mile dash for three-year-old Humboldt county horses, for a purse of \$400, was run by Stock's Flying Dutchman, Harvey's George, and Montana's Fraud. The race was won by Flying Dutchman, George second; Fraud a good third. The next and last race was a match between Springer's saddle horse Charley, and Reed's black mare, May, for \$50; distance, 300 yards; and was won easily by Charley.

HORSES VS. ASSES.

There's many a "rake" in Filson to-day. Who looks at the score through his glasses? And says, "I'm a fool, my friends told me so; the horses are leading the asses."

I staked my coin on the two-legged beasts; That belittle themselves for the masses. I had hoped to win, but now I'm forlorn—The horses are leading the asses.

The outcome will be—ah me! I can't tell, But every one says as he passes. Served you just right, you are in a bad crowd. The horses are leading the asses.

ASA DRURY.

NOTICE.

CENTRAL PACIFIC RAILROAD CO., SAN FRANCISCO, Oct. 14th, 1879.

To Wood Contractors & Millmen: Until December 15th, 1879, sealed proposals to furnish two (2) foot "engaging wood" for the ensigns to supply what is received at this office. Specimens, together with a blank upon which all proposals must be made, can be had upon application to the undersigned.

MISCELLANEOUS.

Sheriff's Sale.

BY VIRTUE OF AN ORDER OF SALE issued out of the District Court of the Second Judicial District, State of Nevada, and County of Washoe, on the 24th day of September, A. D. 1879, and to me directed and delivered, on a judgment and decree rendered in said Court on the 24th day of September, A. D. 1879, in favor of "The Reno Savings Bank, a corporation," and against S. F. Hoole, in which decree there is found to be due the said Reno Savings Bank, a corporation, the sum of \$75,73, and accruing costs, now amounting to \$75,73, and accruing costs and expenses of this sale, I will sell at public auction to the highest bidder, for cash, on the 2d day of October, the following described real property of the defendant S. F. Hoole, or so much thereof as may be necessary to satisfy said judgment and decree, costs, accruing costs, and expenses of this sale.

All those certain pieces and parcels of land situate in the town of Reno, County of Washoe, State of Nevada, known and called the "Old Town" of Reno, as Lots Seven and Eight (7 & 8), and the south half of Lot Number Five (5), all in Block R in said town of Reno, at the Court House door in Reno, County and State aforesaid, on Monday, the Twentieth Day of October, A. D. 1879.

between the hours of nine o'clock A. M. and five o'clock P. M. of that day, to wit: at one o'clock P. M.

W. A. WALKER, Sheriff.

Dated Reno Sept. 25, 1879.

NOTICE NO. 4.
Application for the Purchase of Timber Land.

UNITED STATES LAND OFFICE, Carson City, Nevada, October 11, 1879.

NOTICE IS HEREBY GIVEN TO ALL whom it may concern: That Cyril Beane, of the county of Washoe, State of Nevada, has this day filed his application, No. 4, to purchase from the United States Government the following described tract of land, chiefly valuable for timber, and used for cultivation, viz: North-west quarter of Section 17, Township No. 17, north of Range No. 19, east of the M. D. M., containing 160 acres, and situate within the Carson City, Nevada, U. S. Land District.

Any and all persons having any interest in, or claim to, said land, adversely to said applicant, are hereby required to file such adverse claim with the Register of said Land Office, within the SIXTY DAYS-period of publication of this notice, or failing to do so, they will be barred of such adverse right or claim.
